

Name: \_\_\_\_\_

Term LSCI Administered: \_\_\_\_\_

Institution Name: \_\_\_\_\_

Phone number: \_\_\_\_\_

1. Is your institution on a **quarter** or **semester** system?
2. How many total contact hours do you have **each week** with your class? (Do not include office hours.)
3. How many hours do you spend each week in the following instructional settings?
  - a. Lecture-style setting, which may include questions and activities
  - b. Recitation or discussion section
  - c. Doing traditional laboratory investigations and astronomical observations
  - d. Other (please specify)
4. How many hours during the **term** are used for **exams** (not counting the final exam)?
5. During the **term**, how many times do students work in groups on *collaborative learning* activities, excluding traditional labs (e.g., Lecture-Tutorials, Ranking Tasks, Case Studies)? Provide a range if necessary.
6. During a **typical class**, how many times do you pose a question that requires your students to work together (e.g., Think-Pair-Share or ConcepTest-type question)? Provide a range if necessary.
7. During a **typical class**, how many times are students asked to answer a question or make a prediction by themselves, without working together? Provide a range if necessary.
8. During a **typical class**, are there any other things that you do to promote student learning beyond lecture? For each (use the back-side of this sheet if you need more room):
  - a. Provide a description
  - b. State how many times **in a term** this occurs
